

# Diaphragm Air Pump

*Twin Outlets*

**Create Healthy Oxygen-rich Aquariums and Ponds**

## Pump Performance Chart

Stock No.	Power Supply	Power Consumption	Max Pressure	Max Capacity
AP-0025-B	120V-60Hz*	12.9 Watts at 0.1 kg/cm <sup>2</sup>	3.98 PSI	396 GPH (25 l/min)

\*220 Volt-60Hz available on special order.

- Quiet operation with anti-vibration design.
- Durable long lasting diaphragm.
- Energy efficient 120V motor uses only 12.9 watts.
- Max pressure 3.98 PSI.
- Dual outlets.
- Pumps up to 350' at 5' operating depth.
- Great for pond aeration or large aquariums.
- Use to oxygenate water for fish transportation.
- Also available in 12 volt model.

This high performance diaphragm air pump adds oxygen to your pond or aquarium so fish and other pond life have the oxygen they need to remain healthy. Helps break down toxic fish waste. Important during warm weather when oxygen levels are typically low. Prevents water stagnation and improves pond life.
